

DTX 11 iE

Dynamic In-Ear Headphone

FEATURES

- Outstanding natural sound
- For all mobile devices e.g. MP3 players
- iPhone-compatible
- Available in different colours

APPLICATIONS

The DTX 11 iE is a very natural-sounding in-ear headphone, small, light and practical. Ideal for mobile applications. Available in different colour variations for individual outfits. As a decorative companion for travelling or when playing sports, it features a cable divider in the form of a button, which can also be attached to clothing.
