ROCK-SOLID WIRELESS

SONOS BRIDGE

Perfect for setting up Sonos when your router isn't in a room where you want music.

No rewiring. No complex programming. Simply connect the BRIDGE to your router and place your Sonos player anywhere in the house. And as your system grows, BRIDGE links all your Sonos components with one touch, streaming rock-solid wireless from room to room.

CONTROL MADE EASY

Can't find the remote? That's because there isn't one. Wirelessly take control of your Sonos player with your smartphone, tablet or computer and play a different song in every room or the same song everywhere in perfect sync.

SMARTPHONE OR TABLET

Download the free Sonos Controller App and control your entire Sonos system with your Mac, PC, Android™ smartphone or tablet, iPhone, iPad or iPod touch.

COMPUTER

Simply download the free Sonos Controller App for instant control on your Mac or PC.

AWESOME ALONE. REVOLUTIONARY TOGETHER.

In the living room. In the kitchen. In the TV room. Inside. Outside. Upstairs. Downstairs. Sonos components connect to each other wirelessly to fill your whole home with music. Play a different song in each room or the same song throughout the house, in perfect sync.

Since Sonos speakers are part of a modular system, it is simple to wirelessly pair speakers and create the perfect set-up for your home. Pair two all-in-one speakers for a more immersive stereo listening experience. Add a SUB for the ultimate music showroom, or combine the PLAYBAR, SUB and two PLAY:1's for an epic home theater system.
