

AV module
CFM 060

Specifications

- Max. weight: 20 kg / 44 lbs
- Depth: 436 mm
- Height: 240 mm
- Width: 529 mm
- Guarantee: 5 years

The Audio Video module (CFM 060) accommodates most Audio Video equipment up to max 20 kg (44lbs). The AV module is designed to be mounted on the wall, but also be placed on the floor and can be combined with the Basic module or wall and floor units. The AV module can also be mirrored if you want.

AV module CFM 060

The Compose™ series consists of two modules (the Basic module and the AV module), two furniture units (wall unit and floor unit), and two LCD/Plasma accessories (manual and electronic).

Except for the Basic module and the LCD / Plasma accessories, all of the products can be used alone, but you can also connect and combine two – or more – together. In this way, you can create a beautiful storage and display platform that is tailor-made for all the equipment you own.

The AV module can either be mounted or placed on the floor module. When placed vertically, PC's, game consoles and other equipment weighing up to 20 kg (44lbs). A special buffer mat deadens undesirable vibrations. If you choose to install modules hang slightly in front of it, creating a unique, floating effect

More information about this product can be found [here](#).
